

Ahammed Saad

Software Engineer

London N1 2DT

a.saad227@googlemail.com

+44 7769 348125

As a Junior Software Developer/Full Stack Developer, I have a strong foundation in programming principles and expertise in multiple programming languages such as Python, Java, JavaScript, HTML, and CSS. Proficient in using front-end frameworks such as React.js and Next.js, and backend frameworks such as Node.js. Skilled in software testing, including automated testing, to ensure high-quality code. Experienced in using Git and GitHub for version control and collaborative development. Passionate about continuously learning and adapting to new technologies and techniques to improve code quality and efficiency.

Work Experience

Software Engineer

School of Code

November 2021 to Present

- Experienced in using Agile methodologies to create full stack development solutions as a software engineer trainee at School of Code
- Proficient in various technologies including Python, JavaScript (ES6), TypeScript, React, Next.js, NodeJS, PostgreSQL, NoSql, MongoDB, django, HTML, CSS, Figma, Wireframe, trello, slack, postman, auth0, enzyme, Jest, cypress, Heroku, Netlify, Vercel, git, GitHub, and VS code
- Built web applications and worked collaboratively in teams to deliver high-quality software solutions during the training
- Worked on various projects utilizing the above technologies, including wireframes and UI designs using Figma, testing with tools like Enzyme and Cypress, and deploying applications using Heroku, Netlify, and Vercel
- Committed to continuously learning and staying up-to-date with new technologies to improve skills and contribute to the success of software development projects.

Student Finance Adviser

Student Loan Company

September 2021 to September 2021

- Provided excellent first line support for all telephone enquiries as a Student Finance Adviser
- Prioritized building trust with customers through polite and professional responses to queries
- Navigated resources and the company's bespoke system to provide clear and accurate advice to customers
- Managed refund logs, letter logs, and enquiry forms using Excel or Word format to maintain accurate records
- Processed card payments using the government's bespoke system
- Provided advice on payment plans, including settlement plans, direct debit plans, and Overseas schedule plans, including calculating repayments

- Consistently followed all business rules and processes, including Data Protection Acts (DPA), and provided advice to customers according to the correct articles
- Focused on delivering exceptional customer service and provided proactive support to ensure customers received the best possible experience

Branch Manager

PaddyPower Betfair

January 2016 to December 2019

- Responsible for maximizing shop EBITDA contribution and meeting financial KPIs as a Branch Manager and District Training Coordinator for Paddy Power Betfair Plc
- Analyzed trading reports and positioned actions to drive performance while managing shop controllable costs within the agreed budget
- Kept up-to-date with the district staff training needs and maintained the highest retail standards within the market place to achieve Mystery Shopper targets
- Proactively identified opportunities to grow and impact market share by understanding local customer base and competitor activities
- Efficiently managed shop rotas to reflect business needs and operated within the optimum hours allocated
- Actively promoted principal business opportunities and promotions to customers by thoroughly understanding all available products and markets
- Managed the team's day-to-day activities, leading, developing and managing their performance to consistently meet and exceed expectations
- Focused on driving business growth and achieving exceptional customer satisfaction.
